

## Relay board RP4AF for SMARTCON control

### 1 General

The additional relay board RP4AF extends the SMARTCON control unit with 4 output relays.

The additional relay board RP4AF is a hardware option and should be ordered in combination with the SMARTCON control unit.

A later installation is possible.

The additional relay board RP4AF is mounted on top of the logic board of the SMARTCON control unit.

### 2 Relay configuration

The 4 relays on the additional relay board RP4AF are designed as potential-free change-over switches. The actual interconnection is order specific. Please refer to the attached control connection diagram.

### 3 Technical data

Relais:

Max. switching voltage: ..... 230V AC/DC

Max. switching current: ..... 2A resistive
