

Relay board RP4A for SMARTCON control

1 General

The additional relay board RP4A extends the SMARTCON control unit with 4 output relays.

The additional relay board RP4A is a hardware option and should be ordered in combination with the SMARTCON control unit.

A later installation is possible.

The additional relay board RP4A is mounted below the logic board of the SMARTCON control unit.

2 Relay configuration

The outputs contacts of the four relays are separated from each other. the relays R1 and R2 have changeover contacts, the relays R3 and R4 have normally open contacts.

3 Technical data

Relais:

Max. switching voltage: 230V AC/DC

Max. switching current: 2A resistive
